1. Think back to when you were looking to move into your current home. What aspects of your neighborhood led you to move into the home where you live now?

Has the experience been what you expected (why or why not)?

Neighborhood Number: 4

- The value of the home vs. price.
 - In the "Valley" and not on the hill. In the valley we have trees.
- Junior high school across street (Ramstad). Close proximity to MSU. Well cared for green spaces at MSU and Ramstad. Crime low.
- Our home was a family home, purchased from my parents. We purchased it because it was across from a school. It was a safe neighborhood with lots of green space. It was safe.
- Need street maintenance/include need street lights. Recreation activity, ice skating, tennis, basketball, baseball. Close in location Ownership.
- Close to MSU campus. Solid central location. Older more established area of town. History.
 - The experience has been interesting mostly because of the flood, but other than that, the area has been wonderful.
- My current housing would be at MSU in the dorms. Furthering my education is the cause for me living there. Living on campus is nice since the school is right there. The experience is what I expected, but it can always be better. With there not being very much going on by the college.
